

SwissBorg CHSB Token

CHSB token is the main part of SwissBorg ecosystem. It's name is the same as the company name SwissBorg which abbreviation is CHSB. CHSB Tokens are multi-utility ERC20 tokens based on the Ethereum blockchain. The ETH public address for CHSB Tokens is: [Ethereum Token Address](#). Total amount of the token is 1 billion. Thanks to the fact that CHSB is built on top of the Ethereum blockchain standard it is more compatible with other tokens and standards.

As being said, CHSB is also a utility token. It means more or less that holders in exchange for holding tokens are being rewarded. Those tokens are issued to fund development of other cryptocurrencies and also to allow holders to interact with company services.

To sum up, CHSB is a token which allows holders to interact with company services.
